To Whom it May Concern:

Mr. Mark Pfau has been a volunteer tutor in our school for two years. In addition to his exceptional tutoring skills, he has become a major contributor in supplying our school with needed technology equipment. While working with our students and staff, Mark saw gaps in our technology and acted. He has provided us with 50 Android tablets, along with 100 headphones. With the new online Common Core testing approaching, we were in desperate need of headphones.

We appreciate Mark for providing these valuable resources to our school.

Sincerely,

Cheryl Ingram  
Evanston Academy  
Technology Coordinator
