Thanks to the generous donations from Mark Pfau an alumni of Purcell Marian High School we were able to create a new IT classroom with 23 new computers, update all of the staff computer systems, provide information via display boards through out the school hallways and cafeteria. Mark also donated 3 new J-Touch Monitors for the Blended Learning Math Lab. The generosity of the School New Technology Initiative Program through Mark Pfau has been a real godsend in our effort to keep up with latest technology.
