

St. Francis Seraph School

"A Beacon of Light in Over the Rhine"

January, 2019

Dear School New Technology Initiative,

The staff, students and I, want to personally thank you for all you have provided to St. Francis Seraph School. We are a private school that serves a high poverty student population with limited resources. The technology that was donated enabled us to improve our quality of education for our students. We have used the large screen televisions for all school assemblies and various educational programs. The teachers have enjoyed using their up-to-date laptops in the classrooms. They can enhance their lessons in countless ways by connecting to their J-Touch televisions. The second graders are using their Chromebooks daily. They will do enrichment activities and skill development on them which help to reinforce classroom lessons. Grades third through eighth have greatly benefitted from the headphones that were provided. They use them daily when they are independently working on individualized lessons. All of the technology donated has been put to educational use that has greatly improved the teaching and the learning for our students. We are so grateful for your partnership with our school. Thank you!

Sincerely,

A handwritten signature in black ink, appearing to read 'Halsey Mabry', written in a cursive style.

Mr. Halsey Mabry, Principal
